D. Answer the following Questions:

1. What is a web server ?

Ans. A web server is an Internet host computer that often stores thousands of individual webpages.

2. Why do we use emoticons ?

Ans. Emoticons are used to represent the facial expressions. They help in telling your mood to others as well as save typing time.

3. Can we send a video file as an attachment in an email ?

Ans. Yes, we can send a video file as attachment in an email through 'attach files' option .

4. How many fields does the new message window have ? Explain any two. The New Message window has many fields:

- i) To: In this field, type your friend's e-mail address. You can enter more than one address by pressing ', ' after each e-mail address.
- ii) Cc :- Cc stands for carbon copy. It is marked to the e-mail address who is to be informed that an e-mail has been sent to the person marked in To field.

5. What do you mean by logging in?

Ans. Logging In or login is the process of accessing your e-mail account by providing the user name and password.

6. What is URL? Explain any two ways of specifying a URL.

Ans. URL stands for Uniform Resource Locator. It helps us navigate the Web. We can specify a URL in several ways, but two methods are commonly used:

(i) Address Bar:

Step 1: Type the URL in the browser's Address bar.

Step 2: Press the Enter key from the keyboard.

(ii) Using Hyperlink:

A hyperlink is simply a part of the Web page that is linked to a URL. A hyperlink can appear as text, an image, or a navigational tool such as a button or an arrow. You can click a hyperlink and jump from your present location to the URL specified

by the hyperlink.
